Since listing on the TSX Venture Exchange in October 2022, Tribeca has drawn growing interest from US based investors who recognise the potential at our La Higuera project, following the discovery of a kilometre long mineralised copper gold at the Gaby target".

"As we complete an on-going geophysics program to systematically delineate new drill targets, prior to drilling designed to understand the size of our exciting new Gaby discovery, we will continually strive to grow our investor base."

The Company confirms that the OTCQB quotation does not impose any material additional compliance or regulatory standards over the Company's TSXV listing. The Company further confirms that no shares are being issued to facilitate to the OTCQB quotation. Burns Figá & Will P.C. acted as the Company's OTCQB advisor and sponsor.
