**Tribeca Resources Announces Non-Brokered Private Placement of up to C\$2M with Indications of Interest from Sophisticated Investors**

---

**Tribeca Resources Corporation** (TSXV: TRBC) (OTCQB: TRRCF) ("**Tribeca Resources**", the "**Company**") is pleased to announce its intention to complete a non-brokered private placement pursuant to which it will issue up to 6,666,667 common shares ("**Shares**") at a price of C\$0.30 per Share for aggregate gross proceeds of up to C\$2,000,000 (the "**Private Placement**").

The proceeds of the Private Placement will predominantly be used to fund:

- Pre-drilling activities and an initial 1,500 metre drill program at the Company's Chiricuto project, which features a large geophysical anomaly that remains undrilled;
- Advancement of the Company's La Higuera project ahead of Phase 3 drilling; and
- Wider business development activities and for general corporate purposes.

The Company has received indications of interest from a small group of sophisticated European and North American investors, for a significant proportion of the Shares to be issued.

**Tribeca Resources CEO, Dr Paul Gow commented:**

"This additional capital, underpinned by indications of interest from three long-term shareholders and one new investor, will ensure we are well financed to advance and drill test the significant geophysical anomaly at the recently acquired Chiricuto project. The high calibre of investors we have attracted reflects the exciting exploration potential at the Chiricuto project and our team's proven track-record at the La Higuera copper-gold project."

In connection with the Private Placement, the Company will pay a finder's fee comprised of 6% in cash or Shares to eligible finders in accordance with applicable securities laws and the policies of the TSXV. Closing of the Private Placement is expected to occur on or about July 3, 2024 and is subject to customary closing conditions, including receipt of all regulatory approvals, including the approval of the TSXV.

All securities issued pursuant to the Private Placement, including the Shares issued in consideration for services rendered in connection with introducing the Company to investors, will be subject to a statutory hold period of four months and one day.

**About Tribeca Resources**

Tribeca Resources is a copper exploration company focused on discovering and developing assets in the Coastal IOCG Belt of northern Chile. The company's management team, whose members are significant shareholders of the Company, has world-leading expertise and a discovery history with iron oxide copper-gold deposits in the world's great IOCG Belts of the Carajás district in Brazil and the Gawler and Cloncurry provinces of Australia.

Tribeca Resources' objective is to provide the mineral resources for the next generation of copper mines in Chile. It is focused on building a portfolio of projects, with emphasis on mid

to advanced-stage copper exploration and resource development projects. To this end, mineral targets are regularly assessed in pursuit of acquisition, strategic exploration and significant discovery.

Tribeca's flagship property is the La Higuera IOCG project that comprises 4,147 hectares of granted mining and exploration licences and is located towards the southern end of the Chilean Coastal IOCG Belt in the Coquimbo Region of northern Chile. Further information about the La Higuera Project can be found in the NI 43-101 Technical Report lodged by Tribeca on SEDAR on 24 October 2022. Further, Tribeca holds an option to acquire a 100% interest in the Chiricuto Property. Chiricuto hosts a rare undrilled iron oxide alteration system in the Mantoverde – Santo Domingo district, located in the Atacama Region within the Chilean Coastal IOCG Belt.
